EDUCATION

Sardar Vallabhabhi Patel Institute of Technology
Bachelor of Technology in Computer Science

Gujarat
June 2025 – Present

TECHNICAL SKILLS

Languages: C++, C, JavaScript, TypeScript, Python, HTML/CSS
Frameworks: React.js, Node.js, Express.js, Next.js, Django, Flask, Tailwind CSS, Rest API
Developer Tools: Git, Docker, GitHub, Google Cloud, VS Code, Linux, Windows, AWS, Postman
Databases: MySQL, MongoDB, Firebase, PostgreSQL
Soft Skills: Leadership, Problem Solving, Teamwork, Time Management, Communication

EXPERIENCE

- **GirlScript Summer of Code (GSSoC)** May 2026 – Jul 2026
Open Source Contributor Remote
 - **Frontend Development:** Developed and enhanced responsive UI components using **React.js, JavaScript, HTML/CSS, and REST APIs**, improving usability and application performance.
 - **Feature Engineering:** Implemented reusable modules, resolved critical issues, and optimized existing functionalities to improve maintainability and scalability of open-source projects.
 - **Community Collaboration:** Contributed through **GitHub Issues, Pull Requests, and code reviews**, ensuring high-quality code and comprehensive documentation.
- **Social Summer of Code (SSoC)** May 2026 – Jul 2026
Open Source Contributor Remote
 - **UI Engineering:** Built modular and reusable components using **React.js, Node.js, Express.js, and JavaScript**, contributing to robust web applications.
 - **Performance Optimization:** Enhanced critical modules by integrating authentication workflows and optimizing application architecture for improved scalability.
 - **Open Source Collaboration:** Delivered high-quality pull requests, resolved issues, and actively collaborated with developers across diverse projects.

PROJECTS

- **ZeroWasteLink** GitHub
Next.js, Tailwind CSS, MongoDB, Socket.io, Leaflet.js, REST APIs, Google Auth Dec. 2025
 - **AI-Powered Food Redistribution:** Developed a full-stack platform connecting restaurants with NGOs, leveraging intelligent matching and real-time communication to reduce food waste and streamline donation workflows.
 - **Real-Time Delivery Tracking:** Integrated **Leaflet.js** with geolocation services to enable live route optimization, pickup coordination, and efficient food delivery management.
 - **Secure Communication & Scalability:** Implemented **Google Authentication**, Socket.io-based messaging, and optimized MongoDB operations to provide secure interactions and scalable system performance.
- **MedEaseAI** GitHub
Next.js, OpenAI API, MongoDB, Tailwind CSS, Stripe, Clerk Auth Jan. 2026
 - **Intelligent Healthcare Assistant:** Built an AI-powered healthcare platform capable of symptom analysis, medical report interpretation, and personalized health recommendations using advanced language models.
 - **Specialized AI Agents:** Engineered domain-specific assistants including **CardioBot, MindCare, and NutriBot**, delivering personalized support for cardiovascular, mental, and nutritional health.
 - **Authentication & Premium Services:** Integrated **Clerk Authentication** and **Stripe payments** to provide secure user management and subscription-based healthcare services.

ACHIEVEMENTS & CERTIFICATIONS

- **Competitive Programming:** Achieved a **2-Star** rating on CodeChef and solved **400+** coding problems.
- **JPMorgan Chase Software Engineering Virtual Experience:** Completed a simulation focused on backend system design and enterprise application workflows.
